

# Trimble Protected Plus+ Plans

## FOR AGRICULTURE

You already made a great decision when you purchased Trimble equipment so your grower business can be more productive. Protect that investment with a Trimble Protected Plus+ Protection Plan.

You're a busy person with many responsibilities. Whether you have 1000 acres to plow or a small local farm, you can't afford to have downtime during the critical planting or harvesting season. Any delay puts you behind schedule. Even the smallest pause in performance impacts your ability to get everything done in that narrow window. Your business is your livelihood and so is of critical importance to you, your family, your employees and their families. A Trimble Protected Plus+ protection plan helps you control your costs, minimize your downtime and increase your productivity so that you can concentrate on the task-at-hand rather than the unexpected. The unexpected may happen, but it doesn't have to throw you off your schedule.

Equipment protection plans provide additional protection that shields you from risk and stress. A protection plan is a valuable asset management tool because it helps fix your costs for covered repairs over a period of time.

A Trimble Protected Plus+ plan is available for:

- ▶ Grade Control System (GCS) coverage
- ▶ Display-Modem-Steering bundle coverage
- ▶ WeedSeeker® and GreenSeeker® system coverage
- ▶ Field-IQ™ system coverage

### NEW ADDITIONAL PRODUCT COVERAGE

These additional products have been added as covered items in this new plan:

- ▶ AG25, AG15, GA530, Zephyr Antenna
- ▶ Field-IQ
- ▶ WeedSeeker & GreenSeeker
- ▶ AG-372
- ▶ TDL 450, SNB900, AG-815
- ▶ AG401, GL6XX, GL7XX
- ▶ CB40, CB60, CB415, CB460
- ▶ LR20, LR40, LR50, LR60, LR410
- ▶ SR300
- ▶ Irrigate-IQ
- ▶ Display, Modem/Radio, Steering Bundles
- ▶ AG Water Management Bundles
- ▶ GCS Systems

### Benefits

- ▶ Gets you back up and running quickly during critical planting or harvesting season
- ▶ Minimizes your downtime to increase your overall efficiency
- ▶ Protects your assets against wear and tear, environmental damage, and electrical surges from Trimble power supplies
- ▶ Helps you avoid those unexpected and unbudgeted repair costs which could bring your work to a halt in the field
- ▶ Helps you maintain fixed and scalable expenditures
- ▶ The protection plan price is lower than the average repair cost!
- ▶ A plan could add valuable dollars to the final sale if you should ever decide to sell your equipment; plans come with transferable ownership (plan follows serial number). This gives your potential buyer worry-free use of the equipment after they make the purchase

### A Grower's Investment Protection Solution

If your equipment isn't on a protection plan you can add it with our reinstatement option. Call us today for details!

## WHY A PROTECTION PLAN MAKES WORK AND LIFE EASIER

- ▶ Plans are backed by Trimble's quality parts and Authorized Distributor quality repair service; a value you can trust
- ▶ You can prorate your plans to update all your equipment on an annual expiration date which lets you make one payment instead of many - prevents you from having to remember to make a payment
- ▶ When your equipment is protected, your Distributor can focus on providing additional valuable services like training, priority service, and more to help you go the extra mile in the field
- ▶ When you make an investment in equipment for your business, a protection plan helps you avoid headaches if the unexpected happens
- ▶ A Trimble Protected Plus+ protection plan helps maintain fixed, scalable maintenance expenditures

## SEE WHAT OUR CUSTOMERS SAY

"You shouldn't be in Precision Farming these days without Protection Plans on your equipment. The Farming community is historically used to 'insurance' but not these types of Protection Plans; they give additional value that really adds up! Protection Plans pay for itself if one breakdown happens to you in the field!"

- Warren Schneckenburger,  
3rd Generation Family Farm Owner & Farmer

## TERMS & CONDITIONS\*

- ▶ Wear and tear includes damage from repetitive use resulting in equipment that does not function to specification
- ▶ Environmental damage includes dust, heat, humidity, and salt air when used in accordance with intended equipment specifications
- ▶ Surge protection includes damage due to a surge in Trimble manufactured power supplies. Damage from incorrect installation, welding, or surges caused by a non-Trimble power supply are not covered
- ▶ Accidental damage, as well as cosmetic damage that does not affect product functionality is not covered
- ▶ There is no lightning protection
- ▶ Cables and other accessories are not included
