

# Protection Plans

## Trimble Protected Plus

Trimble® Advanced Positioning Pivot software provides a robust and scalable framework to deliver exceptional system performance and flexible configuration to reduce the cost of operations. Because we understand that you want to continue to use your Trimble Pivot software beyond the factory warranty period, Trimble offers additional coverage with Trimble Protected Plus software protection plans.

### Why Cover Your Software With a Protection Plan?

Adding a Trimble Protected Plus protection plan for your Trimble Pivot software safeguards your software and your investment beyond the factory warranty, ensuring you can keep your projects generating revenue.

### What is Covered?

After expiration of the original software factory warranty, our protection plans' cover:

- compatibility to added hardware
- access to ongoing software updates and enhancements
- fixes to known issues:

This means more predictable performance, productivity, and an increase in your software lifecycle.

### Renew Your Trimble Coverage

Sign up today for your Trimble Protected Plus protection plan and look forward to lapse-free coverage after your factory warranty has expired. If your software is not covered by a protection plan or factory warranty now, we also offer a great reinstatement option to keep your software current under a protection plan.

### Pivot Platform

Pivot Platform gives you two levels of Trimble Protected Maintenance & Support Plan:

Level 1:

- Unlimited telephone support
- Access to Trimble Knowledge Center
- Access to on-line web training seminars
- Software updates included
- If you've fallen out of coverage, you can purchase our reinstatement option

Level 2:

- Unlimited telephone support
- Access to Trimble Knowledge Center
- Up to three (3) full days of concurrent on-site support (including travel expenses). Purchase additional on-site support if required
- Access to on-line web training seminars; you can purchase additional on-site support, if required
- If you've fallen out of coverage, you can purchase our reinstatement option

\*Complete Trimble Protected Plus protection plan terms and conditions can be found online at:

### Benefits

- Trimble Protected protection plans are the only plans designed specifically for buyers of Trimble Pivot software; they enhance and sustain your entire ownership experience with worry-free coverage
- A protection plan keeps your data workflow set running at the highest performance level possible
- You can streamline your software management by prorating all your plans into one single payment
- Your software plan becomes more valuable to your business when you add a Trimble Protected Plus protection plan; it is the only way to get the ongoing software updates from Trimble other than purchasing new software
- A protection plan prevents incompatibility issues between software and the hardware in the field. A software protection plan will in most cases save you time and money
- Having a current Trimble Protected Plus protection plan helps you receive the latest Trimble Pivot capabilities

### THE TRIMBLE PROTECTED PROMISE.

**Trimble wants to keep you satisfied protection plan customer for life so we guarantee to stand behind you and your software plan for as long as you own your coverage.**

**Trimble Protected Plus provides the most up to date features and enhancements from Trimble.**
